

SILVER CALCIUM SMF
SEALED MAINTENANCE FREE

The Superiority of *Trane* SMF

1. **Labyrinth-designed Lid** Specially designed to prevent acid spillage and water loss by condensation of acid mist, and return the condensed liquid back to the cell reservoir.
2. **Sealed Maintenance Free Lid** Completely seals the lid to prevent any unauthorised interference in the battery. Thus the original factory expertise is guaranteed.
3. **Flash Arrestor** Protects against explosions caused by external flame or sparks.
4. **Gas Emission Management** Battery L-shape outlets will deliver the gases to the target safety area by connecting to a tube.
5. **Handle** The ergonomic, user-friendly, strong and robust handle can be neatly pushed back into the lid.
6. **Power Eye** Magic eye or indicator is also provided for easy checking of the battery state of charge.
7. **High Impact, UV Resistant 100% Virgin PP Copolymer Container** World class technology, no recycled materials, robust and durable against ultraviolet rays. Highest safety.
8. **Sealing Ring** Makes better and cleaner welding between cells which allows maximum current flows, eliminates corrossions and leakage between cells. Very low self discharge.
9. **Positive and Negative Plates** Use only the highest purity soft lead of 99.99% minimum to make the active materials.
10. **Silver-Calcium-Tin Alloy Grid** Designed with thicker wires and full-frames to allow better current flows, more power and longer service life in both hot and cold temperatures.

The Real 5-Star Battery ★★★★★

- More power.
- Longer service life.
- Environmentally friendly.
- Premium quality.
- Faster recharge.
- More safety.
- Absolutely Maintenance-Free.
- Factory expertise guaranteed.
